Sir,

ENCLOSURES

Irrigation - Basavannah Chennal - Roya channel and Kamalapuram tank - Fixation of ayacut - statements of consent from ryots - report

SPARE COPIES 3 Board's D.O. No. 257 dated 10.5.35.

The report called for from the Executive Engineer, Bellary, regarding the fixation of ayacut and issue of permits is still awaited. He will again be reminded to send his reply as early as possible. I shall send my reply as soon as his report is received.

2. Most of the pattadars and owners of lands under sluic Nos. 16/2, 18/3, 18/6, 19/5 and 19/6 excluding the absentee pattadars were ~~acquired~~ enquired into and their statements have also been obtained. They say that they are not willing to take the water of the channel paying a water cess of Rs.11/- per acre but are willing to do so only if water cess of Rs.4/- per acre is charged. In this connection I invite the Board attention to para 3 of my C.No. 47/32 Confidential dated 1.7.34 in reply to Board's D.O. No. 435 Confidential dated

For Collector.

Memorandum No. 3702 B/34-3., Dated the 11th June 1935.

Read:- Board's Reference No. H. 2880/34-1., Dated the 1st June 1935.

******

Irrigation - (Bellary) - Hospet taluk - Basavannah channel, Roya channel and Kamalapuram tank - Fixation of ayacut and obtaining consents.

In paragraph 2 of the letter of the Collector of
p.3 of Bellary No. 47/33 (confidential) dated the 18th May 1935 (submitted by the Board of Revenue with its reference quoted above), the Collector has stated that the ryots "are not willing to take the water of the channel paying a water-cess of Rs.11/- per acre but are willing to do so only if water-cess of Rs.4/- per acre is charged". Under
p.2 of (Q) rule II (a) (i) of the rules for the levy of water-cess issued in G.O. No. 2592 Revenue dated the 13th December 1934, the rate of water-cess payable for a first crop is Rs.10/- per acre and not Rs.11/- as stated by the Collector. Under rule III of the same rules, the rate of water-cess payable during the first four years is ¼, ¼, ½ and ¾ of that rate respectively. In paragraph 2 of
..22 of (P) G.O. No. 1452 Revenue (Confidential) dated 25th July 1934, the Board was requested to submit a report, six months before the rate of Rs.10/- was due to come in, whether in view of the trend of prices and the development of irrigation the maximum rate should be introduced. It will thus be seen that the maximum rate of Rs.10/- is to be introduced only in gradual stages. The Board of Revenue is requested to point out these facts and explain the correct position to the Collector of Bellary.

P.K. Gnanasundara Mudaliar,
Assistant Secretary to Government.

To the Board of Revenue, Land Revenue and Settlement.

Enclosures (One - Revised forecast)

Spare Copies

Board's Ref. H.2880/34-1 dated 1-6-35.

In the financial forecast contained in G.O. No. 445 I dated 19-12-24 communicated with B.P. No. Mis.6/25 dated 3-1-25, the following areas were ~~included~~.

		Acres.
(a)	Basavanna Extension channel.	2000
(b)	Dry land	1349

The extents of both these items now require modification as stated below:--

(a) Basavanna Extension channel 1600 acres.

The following are the approximate ayacuts as worked out by the Executive Engineer, Bellary.

Position of sluices	Ayacut in acres.	Remarks.
13/1	Nil.	23.00 originally proposed to be irrigated under the extension channel will be irrigated under the sluice 12/6 of the old chann credit should however be given for this in the new scheme.
13/4	66-16	The area originally proposed under the sluice within Municipal area has been excluded.
15/7	2-27	do. do.
16/1	10-13	do. do.
16/2	188-26	The reduction is due to eliminating the area which is not commandable.
18/3	122-94	The area has been inspected fieldwar by the P.W.D. Overseer and Karnam and omitting the rocks the area commandable has been taken.

18/6	200-53.	The area has been inspected fieldwar by the P.W.D. Overseer and Karnam and omitting the rocks the area commandable has been taken.
19/5	534-77	do. do.
19/6	452-95	do. do.
	1577-91	

If the area of 23 acres under the old channel is added, the ayacut is almost exactly 1600 acres. As this area is arrived at, after actual inspection, with reference to the commandability by flow. this has not been adopted in the revised forecast.

(b) Dry land 1000 acres.-- In para 7 (b) of the .O. referred to above the total ayacut is shown as stated below.

Channel.	Wet. Acres	Dry. Acres	Total. Acres.
Roya channel.	3307	887	4194
Old Basavanna channel.	1139	176	1315
Kamalapuram Tank.	474	286	760
Basavannah extension channel. (Proposed).	2000	-	2000
	6920	1349	8269

The details of the registered wet and dry lands irrigated at any time during the last 10 years are furnished below.

Channel.	Registered wet.	Dry.	Total.
Roya channel.	3806	684	4490
Old Basavanna channel.	1271	128	1399
Kamalapuram Tank.	487	142	629
	5564	954	6518

The total ayacut is then actually ~~16518xxx6269x1nxnlndin~~ 249 acres (6518 - 6269 (excluding proposed extent of 2000 acres)) in excess of the proposed ayacut but the dry area is only 954 acres against 1349 acres in the original forecast. The Executive Engineer considers that not more than 50 acres of dry land in Government villages can be further irrigated. Thus there does not appear to be more than 1000 acres of dry land which can be transferred to wet. The extent of 1000 acres (dry) has not been adopted for purposes of forecast.

2. From penalties on irregular irrigation, a sum of Rs.500/- is expected and is included in the forecast together with the interest on the sale proceeds of 368 acres of dry land proposed to be sold to the India Sugars Limited Hospet. The revised forecast prepared as explained above is enclosed. The total net revenue worked out represents a return of 3.19%.

3. The Executive Engineer, Bellary has recently prepared the ayacut registers for the Basavanna channel, Roya channel and Kamalapuram Tank and sent them to this office for check. They will be returned to him after verification by the Tahsildar of Hospet, with the village accounts. He will them be asked to take up the question of issue of permits in respect of dry lands included in the ayacut registers with effect from the next fasli or earlier if possible.

K.K.R.10-7-35. 10/7

~~For~~ Collector.

Revised Forecast on the Basavanna channel extension scheme.

Revenue on 1600 acres of Government land

(1) at Rs.10/- 50 per acre.	16000	0	0
(2) Water cess on 1000 acres of dry land at Rs.5/- per acre.	5000	0	0 (x)

(x) Net revenue due to Govt. after deducting the present revenue derived is noted.)

(3) Income from penalties on irregular irrigation.	500	0	0
(4) Dry assessment on 368 acres at 6 annas per acre.	138	0	0
(5) Interest at 6% on the sale proceeds of ~~Rs.~~ 368 acres of dry land to be sold at Rs.15/- per acre to the India Sugars Limited viz., Rs.5520/-	330	0	0 (x)

(x) [This requires revision if the ~~schedule~~ Saleable value per acre is enhanced by the Board with reference to this office C.No. 2023/34 A-3 dated 7-6-35 in reply to Board's C.29[illegible]2/34-13 dated 15-5-35.]

	21968	0	0
Deduct working expenses at 12 annas per acre on 2600 acres.	1950	0	0
Collection charges at 5% of the revenue in items 1 to 4.	1082	0	0
	3032	0	0
Net income forecasted	18936	0	0
Total cost of the scheme	92800	0	0

Revenue will therefore be 3-19%.

K.K.R.10-7-35.

Ime

6/8

p 36 q (F)

p 21-41 q (F)

In para 6 (iii) of his note No. 670/23-A.E.P. dated 31-10-1924 (printed in G.O.No.445 I dated 19-12-1924) the C.E. stated that the extent of dry lands which had then been under irrigation was 1350 acres. The Collr. now reports that the extent of dry lands irrigated at any time during the last ten years is only 954 acres. From the details of the wet ayacut under Basavannah and Roya channels and the Kamalapuram tank, now furnished by the Collr, the Board observes that there is an excess of 249 acres over the extent reported in 1924. The Board presumes that This extent must subsequently have been transferred to wet. The Collr. is requested to report whether the presumption is correct.

2. The financial forecast subml. by the Collr. calls for the fol

following remarks:-

(i) In para 2 of his letter the Collr. states that a further extent of not more than 50 acres is likely to be brought under irrigation from the project. It is not clear from the Collr's letter whether these lands had ever been irrigated previously from the existing channels and if not, the proper course will be to take into account in working the financial forecast the full rates of watercess leviable on these lands viz., Rs.10 an acre.

(ii) Credit has been taken in the forecast for a sum of Rs.5000/-towards watercess at Rs.5/- an acre on the dry lands already under irrigation. The existing rate of water cess leviable on these lands is the one specified in Sec. A of Appendix I of B.S.O.No.4 (2) viz., Rs.4 an acre, while the proposed rate is Rs.10/-. Credit should therefore be taken for the difference between the existing and the proposed rates, viz., Rs.6/- an acre

(iii) The present forecast includes an item of revenue under 'income from penalties on irregular irrigation' As this is not a fixed item of revenue, it should be omitted from the forecast.

The Collr. is requested to submi a revised forecast in the light of the above remark

3. In the penultimate sentence of para 2 of his letter the Collr. states that the extent of 1000 acres of dry land referred to therein can be transferred

transferred to wet. His attention is invited to para 1 of the Govt. Memo. No.2606-B-31-5 Rev. dated 25-4-1932 communicated with the Board's Refce.No. 187/32-1 (confdl.) dated 7-5-1932 and he is informed that the dry lands irrigated from the Basavannah and the Roya channels and the Kamalapuram tank should be retained as dry subject to payment of water cess.

4. With reference to para 3 of his letter read above the Collr. is requeste to see that the work of verification of the ayacut registers and the issue of permits is completed as early as possibl and the fact reported to the Board. He is also requested to report whether the consent of the ryots has been obtained for the inclusion of their lands in the ayacut. ~~His attention is invited to rule III~~
